

Cisco 6920 RateMux Multiplexer Cabling Requirements for DVB I/O Card

Cisco recommends that these cables be used for connecting the DVB I/O card (output *only*) installed in your Cisco 6920 RateMux Multiplexer. Use of these “Precision Video Cable” cables or an equivalent (such as CommScope #735 Series) high-quality shielded 75-ohm coaxial cable constructed using at least 95% braid over foil shielding is required to ensure meeting Electromagnetic Compatibility emission requirements as well as assuring superior signal integrity.
