

## Repacking a Switch

---

This appendix provides repacking and shipping instructions for the Catalyst 2948G, 2948G-GE-TX, and 2980G switches if you need to return your switch to the factory.

To repack the switch using the original packaging material, follow these steps:

---

- Step 1** Slide the pieces of the packing foam over the switch. (See [Figure B-1](#).)

**Note** The Catalyst 2948G switch is shown in [Figure B-1](#). The repackaging procedure for the other switches is identical.

---

- Step 2** Place the documentation and accessory kit in the box or poly bag provided.
- Step 3** Place the box or poly bag containing the documentation and accessory kit on top of the packing material.
- Step 4** Place the switch (with packing foam pieces) into the packing carton.
- Step 5** Fold in the top flaps of the packing carton and seal with packing tape.
