## Product Documentation Set

Your product shipped with a minimal set of printed documentation, as well as a Documentation CD. The printed documentation provides enough information for you to install and initially configure your product. The CD contains additional product documentation (user guides, configuration manuals, and so forth), which you can access and print out.

The following is a list of the documentation that shipped with your product along with the URL for accessing that document on the Cisco.com website.

- *Documentation Guide* (This document)

This document describes all the documentation for Cisco Application and Content Networking Software (ACNS) software and hardware products; it provides links to the online documentation and paths to the Documentation CD locations.

To access the online version of this document, use the following URL:

<http://www.cisco.com/univercd/cc/td/doc/product/webscale/uce/acns41/41docmap.htm>

- *Release Notes for Cisco Application and Content Networking Software, Release 4.1*

Release notes provide the most up-to-date information about specific ACNS software releases used in Cisco Content Networking hardware products.

<http://www.cisco.com/univercd/cc/td/doc/product/webscale/uce/acns41/relnote/index.htm>

- *Regulatory Compliance and Safety Information for the Cisco Content Networking Product Series*

The regulatory compliance and safety information document provides essential safety information about your Content Engine, Content Distribution Manager, or Content Router. This document contains multilingual translations of the safety warnings found in your hardware installation guide.
